Plan Description

This home provides plenty of space and privacy to please the entire family. When you step into this home you are sure to love the arches at the entry and dining/study area. The eat-in kitchen provides plenty of room for bar stools and a large breakfast table. The family room is viewable from the kitchen through the arched decorative half-wall and entry. An oasis of contentment awaits you as you walk down the private hallway to the master retreat where you are sure to be "wowed" by the large walk-in closet and spacious bath. The decorative art niche, as you enter the master and the small decorative windows are just an added touch that you won't find anywhere else!

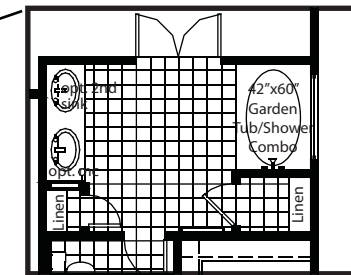

Like having a home builder in the family.
